

# Arjang Pezeshki

## Front-end Developer

Location: CA | Email: [arjangpezeshkidev@gmail.com](mailto:arjangpezeshkidev@gmail.com) | Ph: (747) 334-2697

### Summary

- Having more than 3+ years of experience in Front-End Development, and developing User Interaction screens using **HTML**, **CSS3**, **JavaScript**, **react**, and **react native**
- Have good knowledge in Backend languages like **Python**, and **Java**.
- Responsible for creating efficient design and developing User Interaction screens using **HTML5**, **CSS3** and **JavaScript**
- Skilled in leading **React.JS** framework to build high-quality, scalable and reusable components and Front-end solution
- Experience in database development skills like **MySQL**, **MongoDB** and **PostgreSQL**.
- Experience in developing data applications **Linux/Windows** and **MacOS** environments.
- Used **Git** and **GitHub** for version controlling.
- Excellent interpersonal abilities, communication skills, time management and team skills
- Highly motivated, reliable analytical problem solver and trouble-shooter with strong attention to detail

### Skills

Languages	Python, Java, HTML5, CSS3, JavaScript
Frameworks	React.js, jQuery, Bootstrap, Django, Spring boot, Node.js, Express.js, Flask
Databases	MySQL, SQLite, MongoDB, PostgreSQL
Tools	Adobe Photoshop, Figma, Google AdWords, Microsoft Office, Slack, Trello
Version Control Tools	Git, GitHub
Methodologies	Agile, SDLC
Operating Systems	MacOS, Windows, Linux

### Education

**Full Stack Web Developer Training Program**  
Coding Dojo, CA

Nov-2019 – Jan 2020

**B.S in Aerospace Engineering**  
University of Imam Hossein, Iran

### Experience

**Dell, CA**  
**Front-End Developer**

Nov 2021 - Present

- Responsible for creating efficient design and developing User Interface screens using **HTML**, **CSS3** and **JavaScript**
- Worked on various two different projects writing **HTML**, **CSS** and **JavaScript** based on provided designs to get web sites and web applications built within a team atmosphere.
- Created static responsive prototypes in **HTML**, **CSS** and **JavaScript** for different UI page such as login, registration, application, and dashboard
- Used **Bootstrap front-end framework** for faster and easier web development.
- Worked on **Express framework in Node.js** to develop the logic code to get the data from the **MongoDB database** and to bind the response data to the **HTML5 using React.js**.
- Used **Object Oriented Programming** concepts to develop UI components that could be reused across the **Web Application**.
- Built web-pages and **web-based** application with the newest **React** features centralized with Hooks
- Developed various objects using **Java** and **HTML** to maintain well-structured GUI and to interact with Controllers to get data from **MySQL database**
- Developed front-end application and components using **HTML5**, **CSS3**, **JavaScript**, **React** for the login and management module.
- Communicated with the client to understand the requirement of the website, gained experience in project planning, involved in writing the Project Design Document and Project Plan Document.

**JPMC, CA**  
**Front-End Developer**

Feb 2020 – Oct 2021

- Created web services and desktop applications to access and display data needed by support teams using **JavaScript, React.JS, HTML and CSS**
- Creation of database objects like tables, views, Indexes on tables, synonyms, materialized views, stored procedures, packages using oracle tools like **SQL**.
- Designed, developed and test **HTML5, CSS3, Bootstrap, jQuery and React.JS** that meets accessibility and web browser standards for website.
- Developed user interfaces with **JavaScript frameworks, HTML, and CSS**, to improve user satisfaction by 31%.
- Work closely with the back-end developers to ensure the products are built to specification
- Produced page contents using **Bootstrap** responsive layout design to fit for different device.
- Worked on various two different projects writing **HTML, CSS and JavaScript** based on provided designs to get web sites and web applications built within a team atmosphere
- Developed web application using **React.JS** to increase target audience engagement by 12%.
- Created Controllers using **Bootstrap and React** to handle events initiated by clients, such as adding a product to cart, paying a bill, and clicking a product report button, and then sent a request to the server
- Improved existing software by debugging and testing, as well as adding necessary components/objects/methods
- Designed **CSS** templates for use in all pages on the website working with **CSS** Background, positioning, text, border, margin, padding and table

## Projects

- [www.liketank.com](http://www.liketank.com) - Social media growth service Website:

Developed the project from scratch, designed website wireframe, layout, UI, and user flow model, allowing users to quickly find relevant information and make purchases with shortest steps and minimum effort.

Created dynamic and fully responsive frontend templates with React.js/styled-components/react-router/framer-motion.

Collaborated with a fellow developer in building the website's backend using Django and PostgreSQL. Manage the website's SEM to ensure web traffic, page views. Analyze user behavior and user flow to improve, and add new features to the website.

- [www.likeswave.com](http://www.likeswave.com) - Social media growth service Website:

Developed the project from scratch, designed website wireframe, layout, UI, and user flow model, allowing users to quickly find relevant information and make purchases with shortest steps and minimum effort.

Created dynamic and fully responsive frontend templates with HTML/CSS/JavaScript/Bootstrap/Jinja.

- [www.arjangdev.com](http://www.arjangdev.com) - Personal portfolio Website:

Build a stunning portfolio website with React JS using Styled-components and Framer-motion for awesome Animations. Created responsive frontend pages with React.js/styled-components/react-router/framer-motion /react-particles libraries to make beautiful animations.
